💡 Real-Life Usage Scenarios

📌 Scenario 1: Pehli Baar Setup Karna

text

1. Bot start karein (terminal me QR scan karein)
2. Apne "Message Yourself" chat me bhejin:
`/selfchat 923001234567`
3. Confirmation aayegi:
✓ Self-Chat Protection SET!
4. Ab test karein – bhejin:
`/list`

5. ☒ Rate list aayegi aur WAHI RAHEGI (delete nahi hogi)

Scenario 2: Naya Product Add Karna

text

1. Apne chat me bhejein:
`/addproduct usocket | Universal Socket (10A) | Qty batao`
2. Confirm reply aayegi (self chat me rahegi)
3. Customer poochega "Universal Socket ka rate?"
→ AI full name bolega: "Universal Socket (10A)"

Scenario 3: VIP Customer Ko Discount Dena

text

1. Apne chat me bhejein:
`/customrate 923001234567 wifi 4000`
2. Us customer (923001234567) ko message karein "Wifi ka rate?"
→ AI bolega: "Rs. 4000" (special rate)
3. Baaki customers ko normal "Rs. 4,500" batayega

Scenario 4: Rate Change Karna

text

1. Apne chat me bhejein:
`/rate wifi 5000`
2. Ab sab customers ko naya rate "Rs. 5000" batayega
(Except VIP customers jinke custom rate set hain)

Scenario 5: Kisi Customer Ka Bot Band Karna

text

1. Us customer ke chat me (aap ke WhatsApp se) bhejein:
`off`
2. Us chat me AI reply dena band kar dega

3. Baaki customers ko normal reply karta rahega

4. Dobara chalu karne ke liye:
on

Scenario 6: Group Me Bot Activate Karna

text

Default: Groups silent hain

1. Group me bhejein:

gon

→ Command auto-delete ho jayegi

→ Ab us group me AI replies dega

2. Band karne ke liye:

goff

Command Tips (Zaroori Baatein)

✓ Space sahi rakhein:

- `/rate wifi 4500` — *theek hai*
- `/ratewifi4500` — *galat*

✓ Pipe | zaroori hai `/addproduct` me:

- `/addproduct key | Name | Price`

✓ Numbers normalize ho jaate hain:

- `0300...` `+92300...` `92300...` — sab chalega

✓ Cancel ke 3 alfaaz:

- `cancel` `reset` `delete` — koi bhi chalega

✓ Self chat me test karein pehle, phir customer pe use karein

✓ `/selfchat` command sabse pehle set karein — iske baad hi aap apne "You" chat me baaki commands use karein
